MARYLAND GAZETTE,

Containing the lateſt Advices foreign and domeſtic.

THURSDAY, *September* 2, 1762.

CONSTANTINOPLE, April 17.

M. De RIXEN Envoy extraordinary from the King of Pruſſia, has received ſome freſh Preſents ſent by the King his Maſter to the Sultan; and which are ſtill more magnificent than thoſe which his Majeſty ſent to his Sublime Highneſs the 9th of laſt Month. They conſiſt of 4 Looking-Glaſſes, with Frames of Silver chaſed; twelve Silver Chandeliers; a large Gold Ewer, and two other Vaſes of the ſame Metal; a Tea and Coffee Equipage, both of Gold; a Sabre, the Hilt of which is covered with Diamonds; a Scarf, the Claſp of which is a large Diamond; ſix Gold Watches with chaſed Caſes, ſet with precious Stones; a Teleſcope, the Tube of which is Gold; a Plume of Heron's Feathers, adorned with Brilliants; and two Table Clocks, the Caſes of which are of Venice Glaſs, and ſet in Gold, &c. &c.

Liſbon, April 6. All the Regiments which compoſed the Garriſons of the maritime Cities, are in full March to the Province of Alentejo. Horſes are buying up for the Service of the King. Every Portugueſe who hath three Horſes is obliged to ſell one to his Majeſty. The Arrears due to the Troops are to be paid immediately.

Duſſeldorp, May 9. The Hereditary Prince of Brunſwick, being determined to raiſe the Contributions he had demanded of the Dutchy of Berg, marched near 20 Leagues in two Days, and thereby appeared at Elberfeld, when he was leaſt expected. The Corps of Conflans, and the other Troops that were there, retreated with great Precipitation, though not without ſome Loſs. From Elberfeld his Serene Highneſs advanced to Solinguen, and from thence, having fulfilled the Object he had in View, by taking Hoſtages for the Payment of the Contributions, retired without any Loſs.

Altena, May 11. A large Train of Artillery is preparing at Magdebourg, deſtined, as we ſuppoſe, for Saxony.

Ratiſbon, May 10. There is no Peace to be expected this Year between the Courts of Vienna and Berlin. The former hath rejected the Four Millions offered for the Ceſſion of the rich Dutchy of Sileſia. The epidemical Diſtemper which thinned the Auſtrian ranks in that Dutchy is conſiderably abated.

Hamburgh, May 14. A Volunteer in the Auſtrian Army in Sileſia writes, that Marſhal Daun will probably lay Siege either to Neiſs or Glogau. The firſt is the moſt conſiderable Fortreſs in Sileſia; the other ſecures, in a great Meaſure, the Communication between Sileſia and the Marche of Brandenburgh.

Paris, May 14. The Artificers work withthe greateſt Diligence in all the Dock-Yards of the Kingdom, particularly at Toulon, ſince the Arrival of the large Quantities of Timber brought up from Italy.

Spain hath 34 Ships of the Line ready for Sea, viz. 2 of 80 Guns; 26 of 70; 2 of 64; and 4 of 60.

Liſbon, April 25. As we have never been at War ſince the Peace of Utrecht, our Troops are unexperienced; and that is what makes us uneaſy. Mean while, they are continually exerciſed, and we have already many Engliſh Officers of Experience. When the Engliſh Regiments arrive, they will inſpire ours with Emulation, and ours will be the more formidable, as they fight in Defence of their native Country.

The Maranhan Company, who maintain 3 Ships of War, and 19 Merchant Ships, have, as a Proof of their Zeal, engaged to build and equip for the King's Service, a Ship of War of 60 Guns.

Hague, May 21. Letters from Breſlau of the 12th adviſe, that a Pruſſian Officer, with 80 Huſſars, ſurprized an Auſtrian advanced Poſt at Oldendorff, near Wurhen, and killed 11 Auſtrians upon the Spot, took two Subalterns and 24 private Men Priſoners, with 32 Horſes; and, upon their return, they fell in with another Auſtrian Party, and took one Officer, 12 private Men, and 13 Horſes.

Letters from Paris, received this Day, are full of the Progreſs which the Court flatter themſelves that their Forces ſhall make in Germany, being much ſuperior in Number to thoſe of the Allies. Orders are ſent to their Generals to begin their Operations with the utmoſt Vigour. The Army in Heſſe is to endeavour to get Poſſeſſion of the Dutchies of Brunſwick and Wolfenbuttle, whilſt the Army on the Lower Rhine makes the utmoſt Efforts to diſlodge the Allies from Weſtphalia.

Letters received Yeſterday from Hildeſheim adviſe, that all the Allied Troops were marched out of their Quarters of Cantonment, and by their Motions indicate that they ſhould immediately open the Campaign; ſo that we may expect to hear ſoon of Blows being interchanged.

LONDON, *May* 13.

Extract of a Letter from Paris, May 3.

"It ſhould ſeem that the many Misfortunes which have ſucceeded one another ſince the Commencement of the War, have made an Impreſſion, and that our Government begins to be rouſed from their Inactivity. The Miniſtry are not only taking every neceſſary Precaution, for inſuring the Succeſs of the Campaign in Germany; but they are concerting with Spain Projects of the laſt Importance which tend to nothing leſs than Kindling a general Combuſtion in England, and ſpreading the Flames of War to every Corner of it. Though the late Tumults in Ireland have vaniſhed into ſmoke, not being ſupported, and though there is no longer a Capt. Thurot, Preparations are making for bringing the Pretender on the Stage. Truſty Perſons are to be ſent to Scotland and Ireland to animate his Friends, and to aſſure them that every Thing will be got ready by France and Spain for the Execution of their Enterprize in 6 Weeks or 2 Months."

Yeſterday the Subſcribers to the 2,400,000 l. to be raiſed by Long Annuities of one per Cent. for 98 Years, for the Service of the preſent Year, made good their Payment of 30 per Cent. of the ſaid Capital at the Bank.

May 15. There is a ſevere allegorical Satire handed about at Paris, under the Title of a Diſſertation on the Paſſage of Venus over the Sun. It contains a Multitude of ſhrewd Remarks on the Conduct of the French Venus, who, the Author ſays, has verified the Prediction of Monſieur de Maurepas, that if ſhe lived 12 or 14 Years, ſhe would ſurvive every Stateſman, Soldier, and Seaman in France, a Sarcaſm for which he has paid dear, and his Country much dearer.

May 27. All our Accounts hitherto were unanimous in raiſing the Expectations of a happy agreement between the Courts of Peterſburgh and Copenhagen, in Relation to the Dutchy of Holſtein, and it was even reported that a Convention was already ſigned to that Effect. But by the laſt Mails we received from the moſt authentic Source, the following Account of that matter, viz. That the Differences between the Czar and the King of Denmark had been on the very Point of being terminated by the Intervention and good Offices of their Britannic and Pruſſian Majeſties; that the Emperor of Ruſſia had conſented to let his Daniſh Majeſty remain for ſeveral Years to come in the Poſſeſſion of that diſputed Dutchy, provided the latter paid the Intereſt of its Revenues not only for thoſe Years, but alſo for the Time paſt, ſince it has been a Part of the Daniſh Territories; and that the Britiſh Court had engaged for the Payment of theſe Intereſts, on Condition that a Body of Daniſh Troops, 18,000 in Number, ſhould enter into its Service. So far in Effect was this Negociation conducted. But his Daniſh Majeſty perceiving, that by paying the abovementioned Intereſt to the Czar, he acknowledged him, in the Face of the World, as the lawful Sovereign and Proprietor of that Dutchy, Rejected theſe Propoſals after mature Deliberation, ſo that we are not likely to ſee the End of theſe Differences ſo ſoon as was expected.

In the mean Time the Court of Copenhagen continues its Military Preparations with the greateſt Aſſiduity and Vigour by Sea and Land, and leaves no Means unemployed to augment its Forces, and render its Navy reſpectable.

On the other Hand, the Scene of things at Peterſburgh, which to profound Politicians does not yet bear a fixed and determined Aſpect, carries to the plain Eyes of leſs deep Obſervers, the Appearance of a firm and ſtedfaſt Propenſity to maintain the Cauſe, and ſupport the Intereſts of the Court of Berlin. It is even affirmed that the two Monarchs are actually employed in concerting a Plan, which will ſurprize the moſt provident and ſagacious obſervers of the State and Motions of the political World.

BOSTON, *Auguſt* 16.

Yeſterday arrived at Nantaſket Road, a Brig from St. John's, in Newfoundland, in 20 Days: She was bound to Virginia, and has on board about 60 Paſſengers, among whom are ſeveral Maſters of Veſſels and others, who had refuſed to take the Oath of Allegiance to the French: They confirm the Account of the French having ſtrengthened that Place, and that they were to leave a Garriſon of 600 Men during the Winter: That Capt. Roſs, the late commanding Officer there, and the Capt. of the Gramont, were gone to England, and that a Cartel was ſoon to ſail for New-York with a Number more of the Inhabitants, who were not allowed to carry off any of their Effects: That the French Troops are all Fine pick'd Men, and had recruited about 200 ſince they had Poſſeſſion there; but that the Fleet, conſiſting of only two Ships of the Line, a Frigate and a Store-ſhip, were poorly manned: That the Antelope Man of War of 50 Guns, and the Syren Frigate, were at Placentia; and that the French were in daily Expectation of an Engliſh Fleet from the Continent—The above-mentioned Brig was one of the Fleet from Ireland with Proviſions, and arrived at St. John's after that Place had ſurrendered, and was afterwards made a Preſent of to the Gentleman who now commands her, together with moſt of her Cargo, but for what Reaſon may perhaps hereafter appear.

We hear that a Brig. Capt. John Stevens, jun. Maſter, belonging to this Place, foundered at Sea, the 22d of July, on her Paſſage Home from Jamaica. The People were taken up by a Veſſel in Company.

NEW-PORT *(Rhode-Iſland) Auguſt* 17.

Captain Gardener arrived here on Thurſday laſt, in nine Days from Halifax, and informs, That there were three Men of War, one of 64, one of 50, and one of 20 Guns, at Halifax: That an Engliſh Man of War of 20 Guns was kept conſtantly cruizing off Newfoundland, to keep in the French Privateers: That there were 14 or 1500 Tons of Shipping taken up at Halifax for the Tranſport Service, on board of which they were putting warlike Stores, &c. and that they were in daily Expectation of 5 Sail of Engliſh Men of War, who, with the Tranſports, it was generally tho't, would attempt the regaining Newfoundland.

The Schooner Lively, Capt. Hunt (a Flag of Truce) arrived here Yeſterday, after a Paſſage of 17 Days, from Cape François, and has brought 55 Engliſh Priſoners, moſtly Men of War's Men, lately belonging to his Majeſty's Ship Huſſar, who was caſt away ſome Time ago on a Reef of Rocks near Cape François.——Capt. Hunt informs us, that he left at the Cape 6 Men of War of the Line, and 8 Frigates; and that the Talk there was, that they were to ſail from thence in October next.

NEW-YORK, *Auguſt* 12.

Yeſterday arrived here the Schooner Dolphin, Capt. Canda, of this Port, in 10 Days from Halifax. He was bound to St. John's, and proceeding to the Mouth of the Harbour, where he luckily met a Boat that informed him of its being in the Hands of the French, on which he turned to Halifax, and landed his Cargo.——No Ships of War were arrived there. Several Paſſengers came with him, who were in St. John's when it was taken, being, it is ſaid, ſhamefully given up, without firing a Gun, when it had Strength and Men ſufficient to have repelled all the Force the French brought againſt it.

Captain Robinſon, who lately arrived here from Madeira, reports, that he was informed there, that about the Middle of June laſt, a fine Plantation, on the Weſt End of the Iſland, on which was a valuable Vineyard ſuddenly ſunk under Water, without any apparent Cauſe, there having been no Earthquake perceptible before or at the Time. The Part on which were the Houſes was left ſtanding.

Auguſt 16. The Mail for Falmouth was Yeſterday put on board the Duke of Cumberland Packet-Boat, Capt. Goodridge, and ſhe fell down, to proceed on her Voyage.

Auguſt 23. Thurſday Evening laſt a Sloop, Waterman, late Maſter, belonging to Providence, in Rhode-Iſland Government, was ſent in here by Capt. Williams, of the Letter of Marque Sloop Orleans, of this Port. Captain Waterman ſailed from Martinico the 21ſt of July, but in two Days after had the Misfortune to be taken by a Spaniſh Privateer Sloop, of 10 Carriage Guns, belonging to Porto-Rico, who ordered him to St. Thomas's, and in his Way thither had the good Fortune to fall in with Captain Williams abovementioned, who obliged them to ſteer for New-York.

When Captain Waterman was firſt taken, he had a conſiderable Sum of Money on board, which, the better to conceal, he threw into a Pork Barrel; but the Spaniards in Searching found the ſame, and ordered it directly on board the Privateer.

PHILADELPHIA, *August* 26.

The following Particulars relating to the Havannah, we have extracted from the last Carolina Papers, viz.

"That it was said the Spaniſh Men of War, in the Harbour, were all ſcuttled, and ready for ſinking; which looked as if the Admiral deſpaired of being able to withſtand the Attack of our Army on the Havannah, and was reſolved to render the Ships of as little Uſe to us as poſſible: That a Company of Spaniſh Horſe was taken by a Party of our Troops: That to the Southward of the Moore Caſtle is an high Hill, which was a very deſirable Object in the General's Eye, and accordingly ſent a Party to reconnoitre, and found it poſſeſſed by the Enemy, who were diligently raiſing a Battery there; whereupon a Number of Men were ordered to attack it, which they did with Succeſs, diſlodging the Spaniards, and taking ten Pieces of Cannon: That we then erected a Battery upon that Hill, of 18 Twenty-four Pounders, to play upon the Caſtle; and one of three Nine-inch, and two Thirteen-inch Mortars, with which we ſometimes amuſed and terrified the Town, but that it ſeemed to be the General's Intention to ſpare it as much as poſſible: That we had a Ship to give Notice when the Bombs were well or ill thrown; if they fell ſo as to do Execution, ſhe hoiſted red Colours; and if they flew over, ſhe ſhewed white Colours: That in ſome Clefts, under the Moore Caſtle, lay Perdue about 100 Marksmen, who, when they obſerved the Enemy loading or diſcharging their Guns, gave them a Salute, which occaſioned the Cannon to be loaded only by Negroes; but that this gallant little Party, at a particular Time, not being ſatisfied with what Miſchief they could do the Enemy there, imprudently advancing to do ſome glaring Exploit, expoſed themſelves too much, and loſt ſome Men; upon which they were obliged to retire to their ſtrong Holds, where they were ſo far under the Caſtle Walls, as not to be hurt by its Cannon: That a Party of the Queen's Regiment, cloathed in white, turned up with red, were taken for Spaniards, and, by that Means, got very near one of their Parties, when they killed many, and made ſome Priſoners: That another Party of ours fell in with ſome of their Blacks, that ſerved on Horſeback, whom they endeavoured to encloſe; but the Light Infantry fired too ſoon, by which they loſt the Opportunity of intirely ſurrounding, tho' they killed and took a Number of them: That Colonel Howe, to the Weſtward of the Town, had poſſeſſed himſelf of two Villages, and was attacking a Third, but the Spaniards burnt and abandoned it: That he had alſo Poſſeſſion of a Hill, but had not gained the Summit, as the Ships in the Harbour could gall him much there; and that his Operations were directed againſt the Governor's Caſtle: That the whole Town, as well as the Caſtle, was ſurrounded by our Troops, Parties being encamped all around, within Call of each other: That our Engineers ſaid they could lay the Town in Aſhes in a few Hours, but were not allowed to do it: That the Wall of the Moore Caſtle was ſaid to be Fifty Feet through: And that the Town and Caſtle had a Communication, which our Army could not cut off, and was kept open by Means of a Valley between, where our People could not raiſe any Battery, nor take Poſſeſſion, on account of a Spaniſh 74 Gun Ship, which lay at the End of it, in the Harbour, and, by a conſtant Fire, kept all open and clear."

On Friday Night laſt arrived here Captain M'Auley from the Havannah, which he left the Seventh Inſtant. By him we have the following

Extract of a Letter from the Havannah, July 22, 1762.

"The Siege of this Place began about 40 Days ago, and has ever ſince continued very warm, by conſtant Cannonading in the Day, and Bombarding in the Night. The Spaniards behave with the greateſt Bravery and Reſolution: Their ſtrong Moore Caſtle is almoſt beat to Rubbiſh, and moſt of their other Batteries greatly damaged; and it is computed that they have loſt 100 Men on an Average, every Day ſince the Siege commenced. Yeſterday Morning the Spaniards ſallied out upon our Batteries with about 2000 Men, who were, in the Space of two Hours, repulſed, with the Loſs of upwards of 1200 killed and Priſoners. They afterwards ſent a Flag of Truce to Lord Albemarle, and Sir George Pocock, who offered them ſome Terms of Capitulation, which the Spaniards refuſed, and ſaid, they ſhould all be buried in the Ruins, before they would accept of any ſuch Terms; upon which our Batteries opened, and are now playing like Thunder.——Our Troops got Poſſeſſion of the Glacis ſome Days ago, and have ſent about 40 Miners into the Ditch, who, I am told, have already dug about 9 or 10 Feet under the Walls of the Caſtle, and are now filling it with Powder; ſo To-morrow, or next Day, we expect to ſee their ſtrong Caſtle blown up, and then our Troops are to ſtorm. The Spaniſh Force, at the Commencement of the Siege, was 12 Ships of the Line, 9 Frigates, two new Ships on the Stocks, 4000 Regular Troops, and with Marines, Sailors, Negroes, and Militia, all together, were ſuppoſed to be about 18 or 20,000 Men. The Britiſh Forces were 23 or 24 Ships of the Line, 16 Frigates and Bombs, 12000 Regular Troops, which, with Marines, Sailors, &c. were ſuppoſed to be about 23 or 24,000 brave Men. Our Troops have hitherto ſuffered but very little, in Proportion to that of the Enemy, in Action; but the Fatigue, together with the Climate, has occaſioned a conſiderable Sickneſs among them, tho' very few but what recover in a few Days, or perhaps a Week.——The Spaniards, I believe, begin to be very tired of us now; and, I imagine, becauſe we have not ſet their Town on Fire, and attacked them with greater Vigour before this Time, they think that we intend ſoon to leave them; but that was not our Intention, and I am thoroughly convinced, that in a few Days, or a Week hence, they will find their Miſtake, and ſee, that we only mean to avoid dangerous Attempts with our Troops, and make ourſelves Maſters of their Town with as ſmall a Loſs, both to their Houſes, and to our own Troops, as poſſible."

ANNAPOLIS, *September* 2.

By further Advices relating to the taking of the *Moor-Caſtle*, ſince our laſt, we learn, that our Forces ſprung a Mine on the 28th of *July*, and blow'd up Part of it, and then attacked it Sword in Hand: Next Day the *Spaniards* fired on it to demoliſh that Part of the Caſtle which we had left ſtanding, which they effected, and reduced it to a Heap of Rubbiſh. It is likewiſe ſaid that it was the *Cheſterfield* (and not the *Enterprize*) which was loſt with the Five Tranſports going thro' the Old Streights of *Bahama*. Our Forces on the 7th of *Auguſt*, had not fired ſince the 28th of *July*, but were employed raiſing Batteries, which were to open on the 10th, and it was thought the Town muſt ſurrender in a few Days afterwards.

About 12 or 14 Days ago, Captain *John Johnſtoun*, arrived in *Potowmack*, in 35 Days from *Gibraltar*, and brings Advice, That one of his Majeſty's Frigates, had taken and carried in there, a *Spaniſh* Ship, with upwards of 800,000 *l.* Sterling in Specie.

Saturday laſt, Captain *Francis Richardſon*, arrived here in a Ship from *Liſbon*, after a Paſſage of 10 Weeks: He informs, that it was ſaid there, That Part of Admiral *Saunders*'s Fleet had taken and carried into *Gibraltar*, Two *Spaniſh* Regiſter-Ships, which, by Papers found on board, were ſuppoſed to be worth 2,000,000 Sterling, 7 or 800,000 *l.* being landed: That about 8000 *Britiſh* Troops were arrived at *Liſbon*, and more from *Belleiſle* daily expected: About 1000 Light Horſe were Reviewed the ſame Day they Landed, in Preſence of His Moſt Faithful Majeſty, the Queen, many Nobles, and a great Number of Gentry, and made a very fine Appearance: That a *Portugueze* Officer had cauſeleſsly quarrelled with an *Engliſh* Officer, who was obliged, in his own Defence, to *bleed him*, but did not kill him.

We are informed by a Pilot, lately come up the Bay, that his Majeſty's Ship the *Goſport*, Captain JERVIS, is now at *York* in *Virginia*. The Honourable Mr. FAUQUIER, Governor of that Colony, has publiſhed an Advertiſement in the *Virginia* Gazette, of the 20th of *Auguſt*, purporting, That "Capt. JERVIS's Inſtructions are very peremptory "that he ſhould Sail for *England* with ſuch Ships "as ſhall be ready to take Advantage of his Con-"voy, on the 20th of *September*, being the Day "appointed by the Merchants of *London*; and "notifying all concerned, to expedite the Lading "of the Ships, that they may be ready by that "Time."

TO THE PUBLIC,

THE great Utility of diffuſing a Spirit of Science thro' the Country, is too obvious to need any Proof, and if the Author of the following Plan has been ſo fortunate as to adapt it to this important Object, he preſumes to hope that his Endeavours will be well received and ſupported by the Public. Nature (it is generally acknowledged) has been ſufficiently bountiful to the Natives of this Country, in beſtowing upon them the happieſt Talents; but as the richeſt Soil, without due Cultivation, runs into rank and unprofitable Weeds, ſo little Fruit can be expected from the beſt natural Endowments, where the Mind is not under the Direction of proper intellectual Aids. Among the many Obſtacles to literary Acquirements, which the Youth of this Country are liable to, the Want of Books proper for their Inſtruction, is juſtly eſteemed one of the greateſt. The furniſhing of a competent Library, for any tolerable Advancement in Letters, requires a Fortune which few People in this Part of the World are Maſters of, whence it comes to paſs, that many a fine Genius languiſhes and dies in Obſcurity. The Purpoſe therefore of this Plan, which is to open and extend the Fountains of Knowledge, which are at preſent ſhut againſt all but Men of affluent Fortunes, it is hoped, will meet with the Countenance and Patronage of every Friend to his Country. If the Author of this Scheme finds ſufficient Encouragement from this Eſſay, he propoſes to enlarge his Plan by the Addition of many more Books to his Catalogue, ſo that the Means of Knowledge will thereby become acceſſible to Men of middling Fortunes, and every Man will be furniſhed at a very eaſy Rate with Books which beſt ſuit his Taſte, or correſpond with the natural Propenſity of his Genius. As a Scheme of this Nature is quite new in this Part of the World, the Author has not the Vanity to think, but that what he has propoſed is capable of many Improvements, and therefore will be much obliged to any ingenious Gentlemen, who will point out it's Defects, and furniſh him with any Amendments or Additions, which may more effectually conduce to the Perfection of his Plan. WILLIAM RIND.

MR. *GREEN*,

WHEN I took Notice of the Fallacy of *Rock-Hall* Repreſentation of the Diſtance ſaved by Travelling that Way, I think I did it in Terms as gentle as ſuch an Impoſture would bear, and Mr. *Aires* ſhould have Kiſſed the Rod. I have no perſonal Grudge to him; I neither know him, nor any Thing to his Prejudice, but his faulty Conduct in the Matter before us. I called it *groſs Deluſion* to amuſe Strangers with a Notion of ſaving 30 Miles out of 55, the whole Diſtance between *Annapolis* and *George-Town*, by the Way of *Rock-Hall*. In my Advertiſement I have proved all the Diſtance ſaved by that *Hall* to be but 4 Miles, and thoſe 4 Miles, only by turning Land into Water, which I take to be not very inviting to a Traveller. I ſhould be ſorry to obſtruct his Ferry, as proper only for the lower Parts of the County, and for Conveyance of Merchandize and bulky Matters, as I obſerved before; and ſhould have taken no further Notice of it, but that I find he has ſigned an Advertiſement in your Gazette reflecting on my Views in ſo fair and candid a Repreſentation of the Diſtance both Ways, to prevent the Abuſe of Strangers; for no other will be impoſed on. I ſuppoſe he means nothing more than to get an honeſt Livelihood; and that if ſome Body elſe were not as much Intereſted as he in the Scheme, he would not have ſigned ſo uncivil a Reply to an Advertiſement ſo ingenuouſly ſubmitted to the Experience of others. This Sentiment I am confirm'd in by his imagining I exceed in ſuppoſing the Diſtance from *Annapolis* to *Rock-Hall*, to be 25 Miles; for if he had read his own Advertiſement, he would have ſeen I only took *his own Word* for it, which I ſhall not be ſo ready to credit for the future. It is then not he, but his Amanuenſis, who begins "It is no new Thing "to find that Intereſt blinds the Perſon affected "and very often Biaſſes the Judgment." This is an affected Sort of Speech; to *blind* the Judgment and *bias* it too, are intended as a double Charge by Way of Exaggeration. However he is groſsly miſtaken in ſuppoſing me biaſſed; my Arguments are ſufficient of themſelves, I am not of his Kidney; if it fell to my Lot to take Notice of the Thing, it is not that I was intereſted; it was as much the Duty of every honeſt Man who detects Impoſture to expoſe it. As to my Bias of Intereſt, let the Gentlemen who have paſſed at *Townſide* vouch; I keep no Tavern, my Ferry on the contrary is ſimply a Tax upon Hoſpitality, where often better Entertainment is given to Perſons of Worth than may reaſonably be expected in moſt Taverns. Mr. *Aires*'s Amanuenſis further ſaith, and Mr. *Aires* hath ſigned, that I was ſo blinded as to ſuppoſe the Traveller would carry his Horſe over 25 Miles of Water, to ſave 4 Miles riding. No, Mr. *Aires*, not ſo blind, I don't ſuppoſe any Man ſo blind: But I think in this Inſtance the Blind leads the Blind. Your Amanuenſis makes you declare in this Sentence, that the Traveller muſt find a freſh Horſe if he intends beyond your Houſe or *Middleton*'s, North or South, and at the ſame Time muſt leave his Horſe at the Mercy of your Hoſtler with no ſmall Expence; for where you object to the Expence of other Ferries, I preſume you do not mean that it ſhall extend the Traveller ſhall ſave a Penny by taking your Road; it will be no Advantage to you to ſet up on that Plan. Mr. *Aires* has ventured to ſay, that by my own State of the Matter, the Diſtance from *George-Town* to *Kent-Iſland* is 47 Miles, and to *Rock-Hall* but 30. Sure I am I never ſtated it ſo; I cannot ſtretch it beyond 40; it is about 7 more to the Iſland Ferry, 12 Miles Eaſtward of *Annapolis*. He was led into this Blunder by a blind Bias ſuch as he ſpeaks of, or elſe by the Manner of Witches ſaying the Lord's Prayer, by counting backwards. I ſet off from *Annapolis* to *George-Town*, he reckons from *George-Town* to the Narrows, and there he ſtops ſhort; it did not ſerve his Purpoſe to go further; this is not a fair Way of Boxing the Compaſs. "And this (he has the Modeſty to add) muſt ſave 17 Miles," not content to cheat the Public of the 7 Miles acroſs the Iſland, but alſo the vaſt Difference between a Traveller being at the Iſland Ferry in Sight of *Annapolis* in a Manner, within 12 Miles, and being at *Rock-Hall* at the Diſtance of 25, as he calls it, tho' it is probable he never hove the Log. In ſhort he overlooks in this Reckoning, the Difference between *Rock-Hall* and the Iſland Ferry 13, and acroſs the Iſland 7, which is now 20 in 25, large Lee-way in a Traveller's Reckoning. He ſays it is but 16 Miles from *Cheſter* to *George-Town*, I ſuppoſe he Means from *Cheſter-Town* to *George-Town*; granted, though I have known it reckon'd 18, he is not ſo favourable to me in the Diſtance from *Dockery*'s to *Townſide*, which he is *apt to believe* are a few Miles ſhort of the Truth; he is *apt to believe* a Falſity here; the Fact is, this Diſtance is not generally reckon'd ſo much: But it has been meaſured and found to be a little ſhort of 18. I am not ſo well acquainted with the other Roads: But computed Miles uſually meaſure more; however I am not *apt to believe* any Thing without Foundation. Mr. *Aires* ſays "he has often run the aforeſaid 25 Miles in 2 Hours with a moderate Gale: But with a good Wind 'tis ſoon run (that is to ſay *ſooner* to be ſure) and being up and down the Bay, the Tide, when it anſwers, quickens the Paſſage much." May not we conclude from this, that when both Wind and Tide anſwer, he may go at the Rate of 25 Miles an Hour? *Credat Judæus Apella*. My laſt was purely for the Public Good; this is not leſs ſo: But as my Reputation ſeems a little concerned from the Indecency of the Aſperſions here refuted, if you think me principally intereſted, let this reprimand (as mild I think as the Subject deſerves) be inſerted in your next. To conclude, *ſi populus vult decipi decipiatur*, all I mean is, that with my Conſent it ſhall not be *nolens volens*. My Advertiſement has been of ſome little Service to Mr. *Aires*, it has put him in Mind to point out the Situation of *Rock-Hall*. Let every Man try, and I will anſwer for it, that, unleſs in the Circumſtance mention'd in my Advertiſement, he will never try again.

Yours, &c. H. CALLISTER.

It is the greateſt Preſerver of the Lungs, poſſeſſing all the Virtues of Honey, and the richeſt Balſams, and never diſagrees with the Stomach.——If it be in the Power of Medicine to ſtop the Ravage of that cruel Diſeaſe the Conſumption, which cuts off ſuch Numbers of young Perſons; this Balſam will effect it. This Medicine is in the utmoſt Eſteem with all Perſons at Home, it having ſaved many Thouſands from the Grave. (PRICE, 7 *Shillings a Bottle.*)

For the certain Cure of the SCURVY, LEPROSY, *and all Obſtinate Diſorders of the* SKIN,

THE ESSENCE OF WATER-DOCK.

The Virtues of which are ſuch, as to cure the moſt inveterate Degrees of the Scurvy; it not only clears the Skin of all Breakings out, but mends the Conſtitution. Perſons afflicted with the Scurvy are ſubject to have bad Stomachs, and to be miſerably low-ſpirited, and many have thoſe Complaints, not knowing that the Scurvy is the Cauſe. This Medicine takes off the Fatneſs, creates an Appetite and Digeſtion immediately, clears the Skin, and prevents future Eruptions. (PRICE 7 *Shillings a Bottle.*)

The moſt ſucceſsful Medicine that ever was uſed for the effectual Cure of the GRAVEL *and* STONE; *called*,

THE TINCTURE OF GOLDEN ROD.

This Medicine has been found very excellent in preventing the Gravel from concreting into Stones, and diſcharging it without Pain; it will bring away all Gravel as faſt as it is depoſited in the Kidneys, and never ſuffers it to lodge, or form Stones again, and it has been found by Experience to excel Mrs. *Stephens's*, and all other Medicines uſed in diſſolving Stones. (PRICE 9 *Shillings a Bottle.*)

Alſo, it is excellent in Sickneſs of the Stomach, and in Flatulencies, Obſtructions, and the convulſive Aſthma. (PRICE 6 *Shillings a Bottle.*)

For the Cure of the GOUT *and* RHEUMATISM,
A NEW DISCOVERED MEDICINE, *called*,

ELIXIR of BARDANA.

THE *BARDANA* is a common innocent *Britiſh* Plant, its Virtues againſt the Rheumatiſm have always been known; and the Phyſicians of EDINBURGH, who have diſtinguiſhed themſelves eminently in the Improvement of Medicine, now give it conſtantly and ſucceſsfully in that Diſeaſe: The Author claims no Merit but that of extending its Uſe, aſſiſting its Efficacy, and reducing it to a Form in which it may be more conveniently taken. It is pleaſant, ſafe and effectual; and if we judge from the firſt Experience upon himſelf, and the happy Effects of its Uſe in a great Number of other Caſes in *London*, there is Ground to hope theſe Diſeaſes will no longer ſo grievouſly torture Mankind.

To prevent the Return of the Gout has been hitherto found impoſſible; and perhaps is not to be wiſhed; but to relieve thoſe who ſuffer it greatly is in our Power; to reduce the Number, and ſhorten the Continuance of the Fits; and to alleviate the Pain of them: So much will be effected by this Medicine. The Author is known, and the Afflicted may take it without Fear; for however limited his Power may be in doing good to Mankind, he would not for any Conſideration be the poſſible Cauſe of doing Harm to any.

Among the Numbers who have taken it in the Courſe of the laſt eight Years, it is to be affirmed, with perfect Truth, there is not one who has not found great Benefit.

The Author by the Uſe of it has reduced the Gout, which uſed to confine him a third Part of the Year, to a ſlight Fit of three or four Days, Spring and Fall, with perfect Health in the Intervals: And others who have perſevered in its Uſe, have found the like Advantage. Theſe are its Effects in the Gout, which are as great as a conſiderate Perſon would deſire:

In the RHEUMATISM
It is a certain and abſolute CURE, and the Diſeaſe NEVER RETURNS.

The Doſe is a Tea Spoonful in a Wine Glaſs of Water Night and Morning.

Its Operation is by inſenſible Perſpiration, and ſlightly by Urine.

JOHN ADDISON.

Virginia, Auguſt 2, 1762.

RAN away laſt Night, from the Subſcriber living in *Weſtmoreland* County, a Servant Man named *John Grocott*, an *Engliſhman*, near 40 Years old, about 5 Feet 9 Inches high, well ſet and pretty full faced, wears his Hair, which is of a brown or ſandy Colour, ſtrait and newly ſhaved on the Top of the Head, talks much, and is a Bricklayer and Plaiſterer by Trade, he has worked in a Garden at Times whilſt with me, ſo that he may pretend to that Buſineſs: He took with him a dark Kerſey Coat with large Metal Buttons, and Breeches of the ſame almoſt new, an old light Duffel Coat, a blue jump Jacket, double-breaſted, with ſmall Metal Buttons, white and colour'd Stockings, ſeveral Shirts, white, brown & check'd Linen, ſeveral Pair of Trowſers, and other Things I know not of. I am told he has an Indenture that he has got from ſome Perſon for this Purpoſe, with a Diſcharge on it, and ſuppoſe he may change his Name to anſwer that. Alſo,

A Negro Woman Slave, called *Betty*, of a middle Stature, and of a yelloviſh or dingy black Complexion, her Face rather thin than otherwiſe, proud in her Carriage, of a tolerable good Shape, Country born, and about 24 Years old: Carried with her a white Linen Jacket, ruffle cuffed, a Petticoat of the ſame, a blue and white ſtrip'd Cotton Gown, a black and white ſtrip'd Petticoat, and ſeveral other Cloaths of different Kinds.

It is ſuppoſed they were perſuaded away by one *William Wood* (who is with them) who has formerly been a Sailor, and has been hired a ſmall Time by me: He is, I believe, an *Engliſhman*, about 5 Feet 7 Inches high, of a tawny Complexion, thin Viſage, and his Hair is off, the Toe next his great Toe turns under at the End, and his little Toe is loſt, ſuppoſed to be from the right Foot.

They ſtole ſundry Bedcloaths, and went off in a Schooner Boat, 18 Feet Keel, deck'd to the Mainmaſt, Sails and Mainmaſt new, Foreſail not tabled, and daubed in ſeveral Places with *Turkey-Point* Paint, no Bowſprit; they took with them a large Pine Canoe, a Locker in her Stern, an Iron Chain in her Head, fixed for two Oars.

Whoever apprehends the ſaid Runaways, ſo that I get them again, ſhall receive a Reward of Eight Pounds for *John Grocott*, Forty Shillings for the Negro Woman, and Twenty Shillings for *William Wood*, Current Money; and if taken in *Pennſylvania*, Ten Pounds for the Bricklayer, Four Pounds for the Negro, and Forty Shillings for *William Wood*, paid by JOHN NEWTON.

N. B. When taken be careful of the Indenture and let me have it. *J. N.*

2000 Tickets at 10 *s*. each, are 1000 £.

AS the Sum wanted is but ſmall, and the Number of Tickets are few, the Proportion of Prizes to the Blanks could not be increaſed without making the Prizes ſo ſmall as to render them not worth the Acceptance of the Adventurers. But as the Price of the Tickets is low, and the deſigned Application of general Benefit to all intereſted in Navigation, it's hoped this Scheme, for raiſing the Sum wanted, will meet with Encouragement from both the Merchant and Planter.

The Managers are, Meſſrs. *Chriſtopher Lowndes*, *John Row*, *Thomas Chittam*, *Richard Henderſon*, *Francis Hatfield*, *Daniel Stephenſon*, *Richard Whittle*, *Thomas Gantt*, junr.
